

BARN OWL

Note: there are a lot of judgment folds in this model.

A F B 1972

diagrams revised 11/24-98

① White side up.

② VF corners down.

③ Unfold.

④ Standard rabbit-ear.

⑤ Repeat 3 & 4 on right.

⑥ VF flaps up to just below peak.

⑦ Turn model over.

⑧ Valley-fold upper edges down, pinching peak (beak).

⑨ Valley-fold sides in (all thicknesses).

Bare owl, p. 2

10 VF ridges down + pull beak down with it.

11 Round out eyes.

12 Flatten beak w a soft squish fold from underneath it.

13 Pivot left wing down to the side. Flatten, lengthening the triangle ABC. Repeat with right wing.

14 Turn model over

15 Open layers of tail.

16 Enlarged detail:
a - Blunt tip.
b - Re-close.

17 Valley-fold

Barn owl, p. 3

18 Valley-fold

20 Separate the layers of the left wing.

21 In a kind of outside reverse fold, turn left wing inside-out. Repeat 20 + 21 on the right wing.
