① Decide which color should be dominant and begin with that color facing up. Pre-crease the diagonals. Turn model over.

② Pre-crease the book folds.

④ Rabbit-ear each flap but, fold only where the dashes are. Pinch the vertical part of the rabbit ear.

③ Blintz-fold. (add ease)

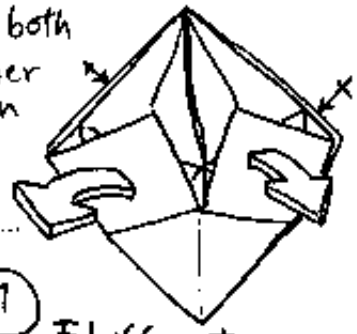

Blossom ornament,
p. 2

5 Leave the little flaps sticking up. Form a preliminary fold by gathering corners behind on creases made in ①+②.

6 Squash-fold both the outer and inner flaps. Repeat on other three.

7 Fluff out the petals.

9 VF tab into model + sharpen fold well. Distribute petals evenly around axis + re-fluff.

8 Valley-fold along the axis.

10 Optional step. Flatten the four nested petals to one side. Curve the thickish tab and insert into pocket of next flap. Re-shape the petals.

Variation #1

For a less angular version, follow steps 1 through 5. Skip over 6+7. Do 8+9. Lock if desired (step 10). Push the nested petals up and round them. Thread to hang.

Variation #2. Do 1 through 5. Gather up the points + add thread to hang. Open out the petals + round them.
