

SHAMAN

Start with a 1x2 rectangle of mono-color paper. For an ATC, use a 3" x 6" rectangle.

A
F
B
6.
10.
98

① FUF in half both directions.

② Fold a waterbomb base on the right half, & tilt 90° .

⑤ IRF feet (separate layers equally).

④ M+F bisecting outer corners (can flip, lift sloping edge, & do as VFs).

③ VF near layer at $\frac{1}{3}$ mark; squash-fold internal layers.

Shaman, p 2

⑥

M+F legs.

⑦

VF
(note x).

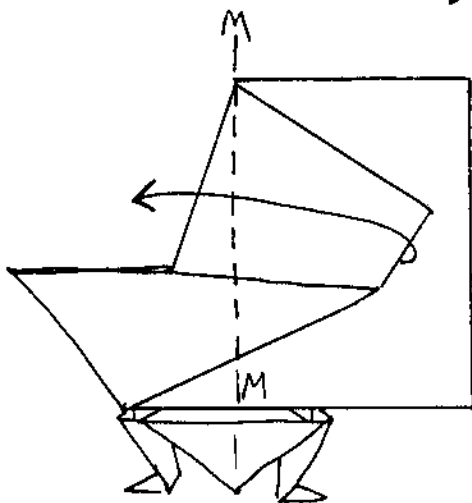

⑧ FUF partial diagonals.

⑩ Lift layer X and re fold underlying layer on crease from step 8 (dotted line). Extend fold to mid-line M, squash-folding area Y.

⑨ VF at the place underneath where legs meet sloping edges of waterbomb base (x in diagram #7).

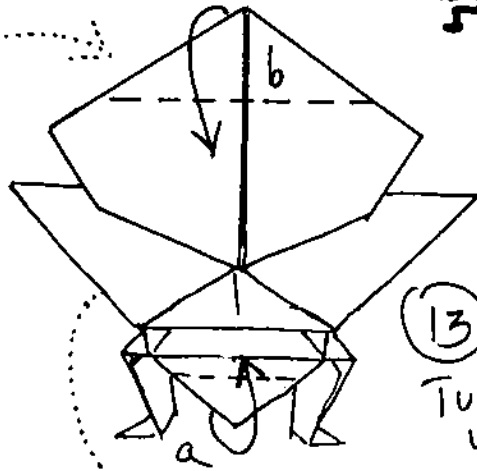

⑪ VF along underlying mid-line (M).

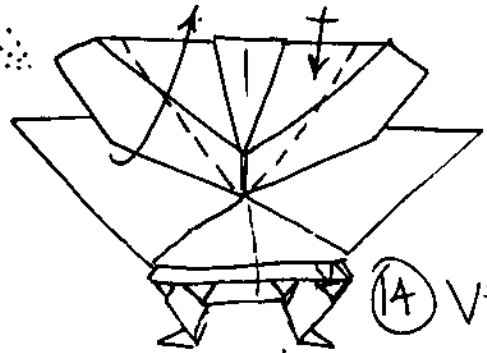

12

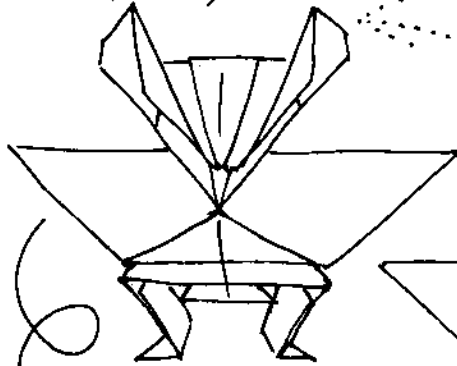

Repeat steps 10 and 11 on the right (note: corner X may be below, on, or above edge E).

13 VF (a) and (b).
Tuck peak (a) under layer above.

14 VF.

16 Flip.

15 VF (does not bisect upper corner.)

17

Rabbit-ear arms, bisecting tip first.

18

Different headdresser can be devised (e.g., M+F step 13 b + use flap to form a face).
