

PureHeart (2004)

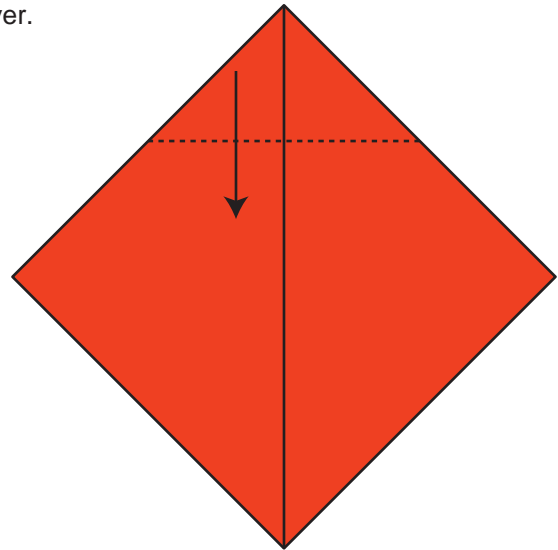

By: Charles Esseltine

It's Pureland, it's a heart, it's a PureHart!

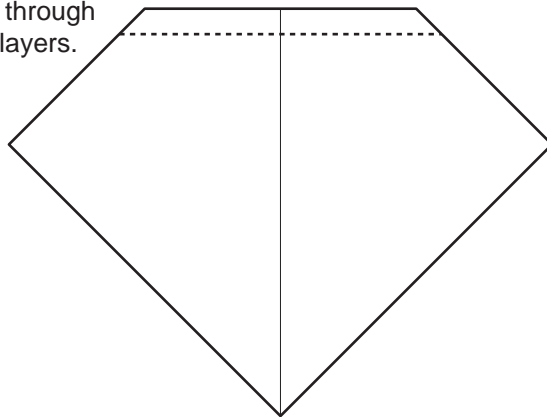

1.) Start with a square, white side up. Fold diagonally. Unfold & Flip over.

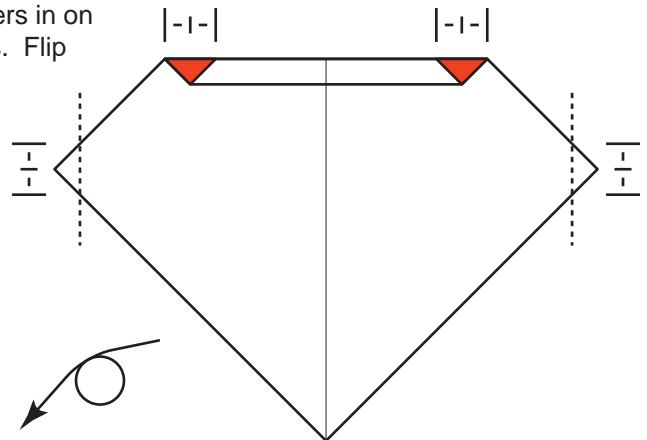

2.) Fold the top corner down 'about' halfway. Flip over.

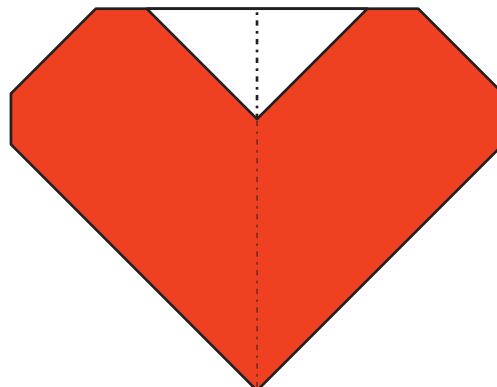

3.) Fold the top edge down just a little. The fold goes through both layers.

4.) Using the triangles formed in the last step as a guide, fold the corners in on the sides. Flip over.

5.) Refold the center crease on the white section. So the entire center is a mountain fold.

And you're done!
