Eifel Star

1. Start with the color side up. Pinch at 1/2.
2. Align lower left corner with pinch mark.
3. Fold an angle bisector.
4. Align the two edges.
5. Fold an angle bisector on the top layer only.
6. Fold the model in half.
7. Make a strong crease through all layers.
8. Unfold completely.
9. With the color side up fold behind on existing creases.
10. Fold the corner to the circled reference point.
11. Pull A to the back while folding B onto C.
13. Tuck tip A of the right module underneath D and the flap inside the left module.
14. Tuck the tip of the left module into the pocket of the right module. Repeat behind.
15. Proceed with the remaining modules.
